

What to do with embedded intelligence?

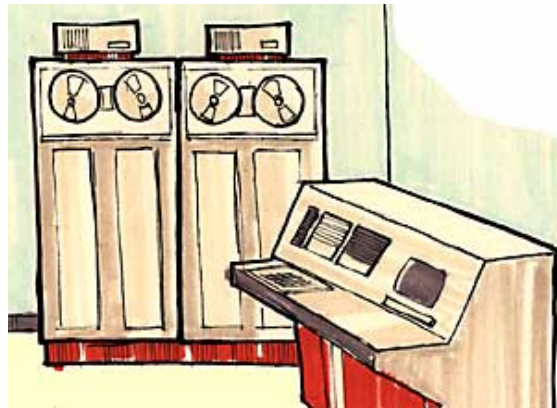

Seminar Context-Aware and
Ambient Applications

Prof. Dr. Armin B. Cremers, Prof. Dr. Albrecht Schmidt,

*Holger Mügge, Dagmar Kern, Paul Holleis, Julia Kuck,
Alexander Goth, Tobias Rho, Daniel Speicher, Pascal Bihler*

The next big hype: „Everywhere Computing“

**The good old days:
Mainframes**

**The last decade:
Desktop PCs**

**The future:
Computers everywhere**

**This is what our
seminar is about...**

A simple example of using context information...

- The intelligent cellphone:

Busy station:
Normal ringtone

Business meeting:
Vibration alarm

Relaxation time:
No alarm, mailbox, ...

And all that completely automated, without direct user interaction!

Basic seminar facts:

- Dates:
 - 10.4.07 – First group meeting
 - 16h, b-it Building
 - 24.4.07 – Second group meeting
 - 13.7.07 – Third and last (!) group meeting
- Registration recommended,
- but not required
- Email: **muegge@iai.uni-bonn.de**
- Web: **<http://uie.bit.uni-bonn.de/seminar.php>**

Please
note!
